

Jeronimo Streetscape Project

Phase 1

(Currently In Design)

This project will enhance traffic safety and traffic congestion relief opportunities, and construct parkway landscaping and raised landscaped median islands along Jeronimo Road. The Jeronimo project will be divided into three discrete segments. Phase 1 – Jeronimo Road between Los Alisos Boulevard and El Toro Road – is currently under design. Phases 2 and 3 may or may not be constructed depending on community input and the policy direction of the City Council.
